IDEAS

The Next Recession Will Destroy Millennials

Millennials are already in debt and without savings. After the next downturn, they'll be in even bigger trouble.

Why The 21st Century Needs (an Existential) Revolution

We Need to Build Systems, Organizations, and Institutions That Exist for a Reason That Matters Again. Here's How.

Adding 1 billion hectares of forest could help check global warming

This is where the world could support new forests. The map excludes existing forests, urban areas, and agricultural lands. J. BASTIN, et al., *Science* 365, 76, 2019

Opinion

Can Anyone Hold the Global Economy Together?

We are trapped between an erratic Trump, a dysfunctional Europe and an authoritarian China.

You can't succeed in life without a degree. That's why you need schooling if you want to go to Harvard.

That's not true, Don't confuse schooling with education. I didn't go to Harvard but the people that work for me did.

FORMULATING THE FUTURE
The Building Blocks of the Five V's

INTELLIGENCE IS POWER
Minimize Risk. Maximize Reward.

Technology + Humanity = Industry 4.0

Ironically, Industry 4.0 will require us to become more human.
Our mind space is now freed up to unleash our superpowers.

**For whom are we building the future?
Who is included in the future?**

“

“Some people call this Artificial Intelligence, but the reality is this technology will enhance us. So instead of Artificial Intelligence, I think we'll augment our intelligence.”

Virginia M.(Ginni) Rometty,
Chairman, President &
Chief Executive Officer, IBM

What future do we want to build?
How will we get there?

65 percent of children entering primary school will end up in jobs that don't yet exist.

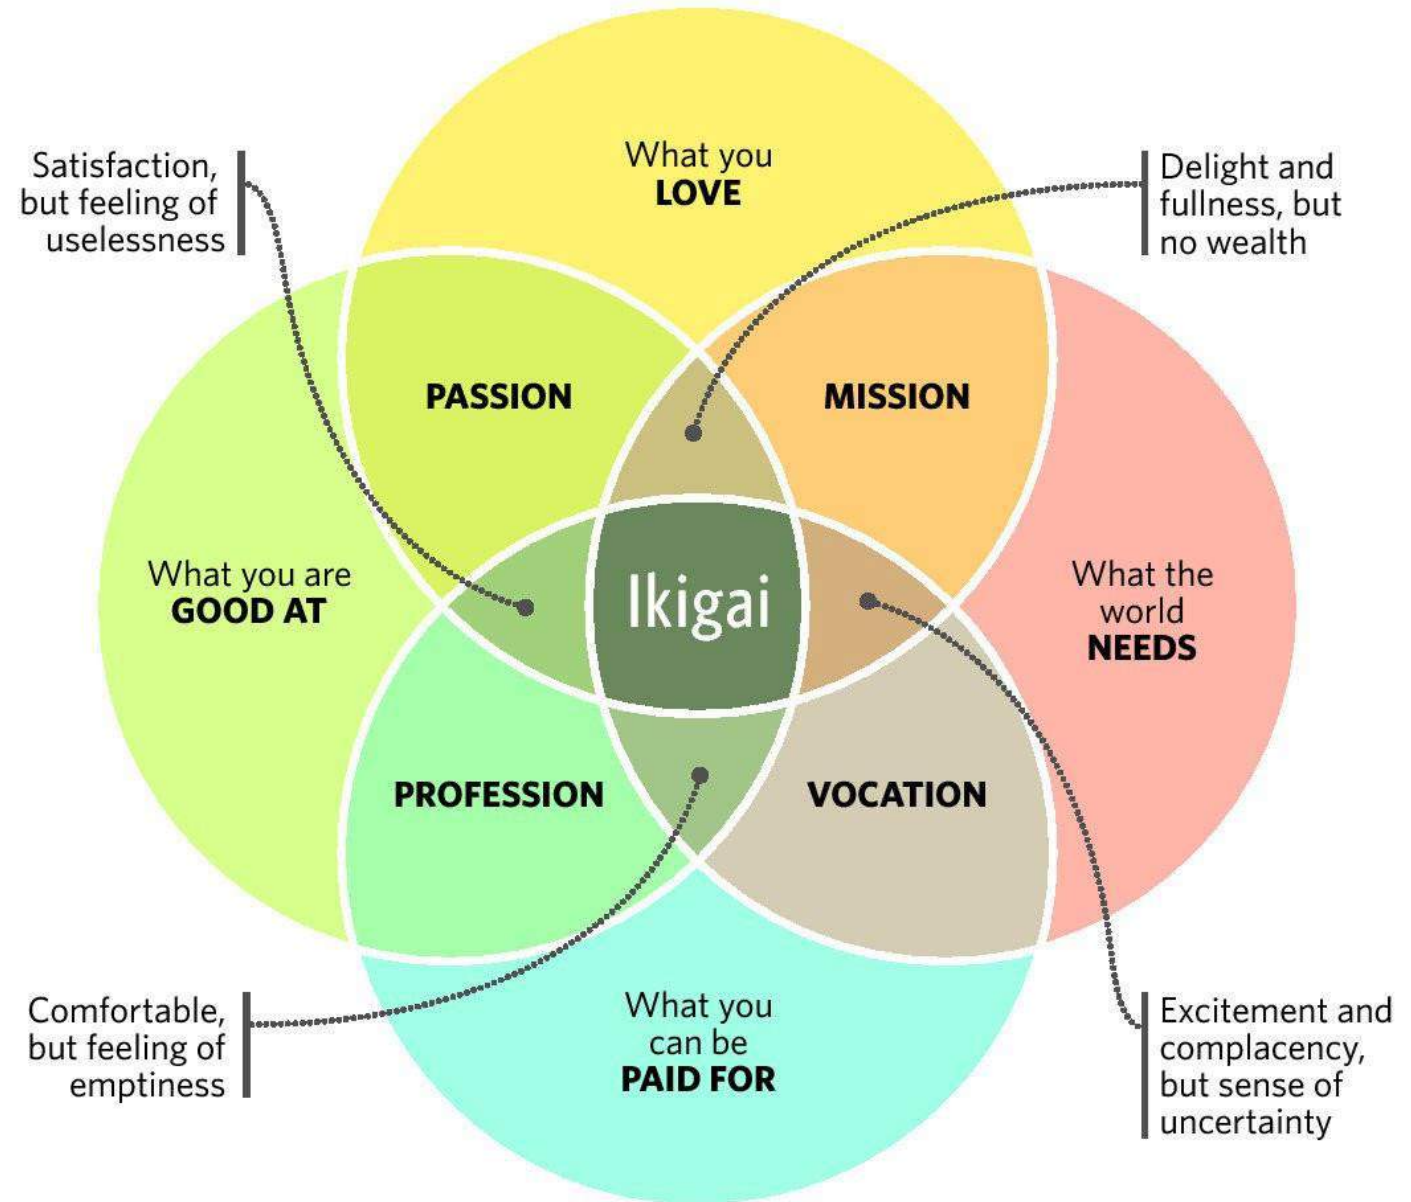

What does that mean?

“

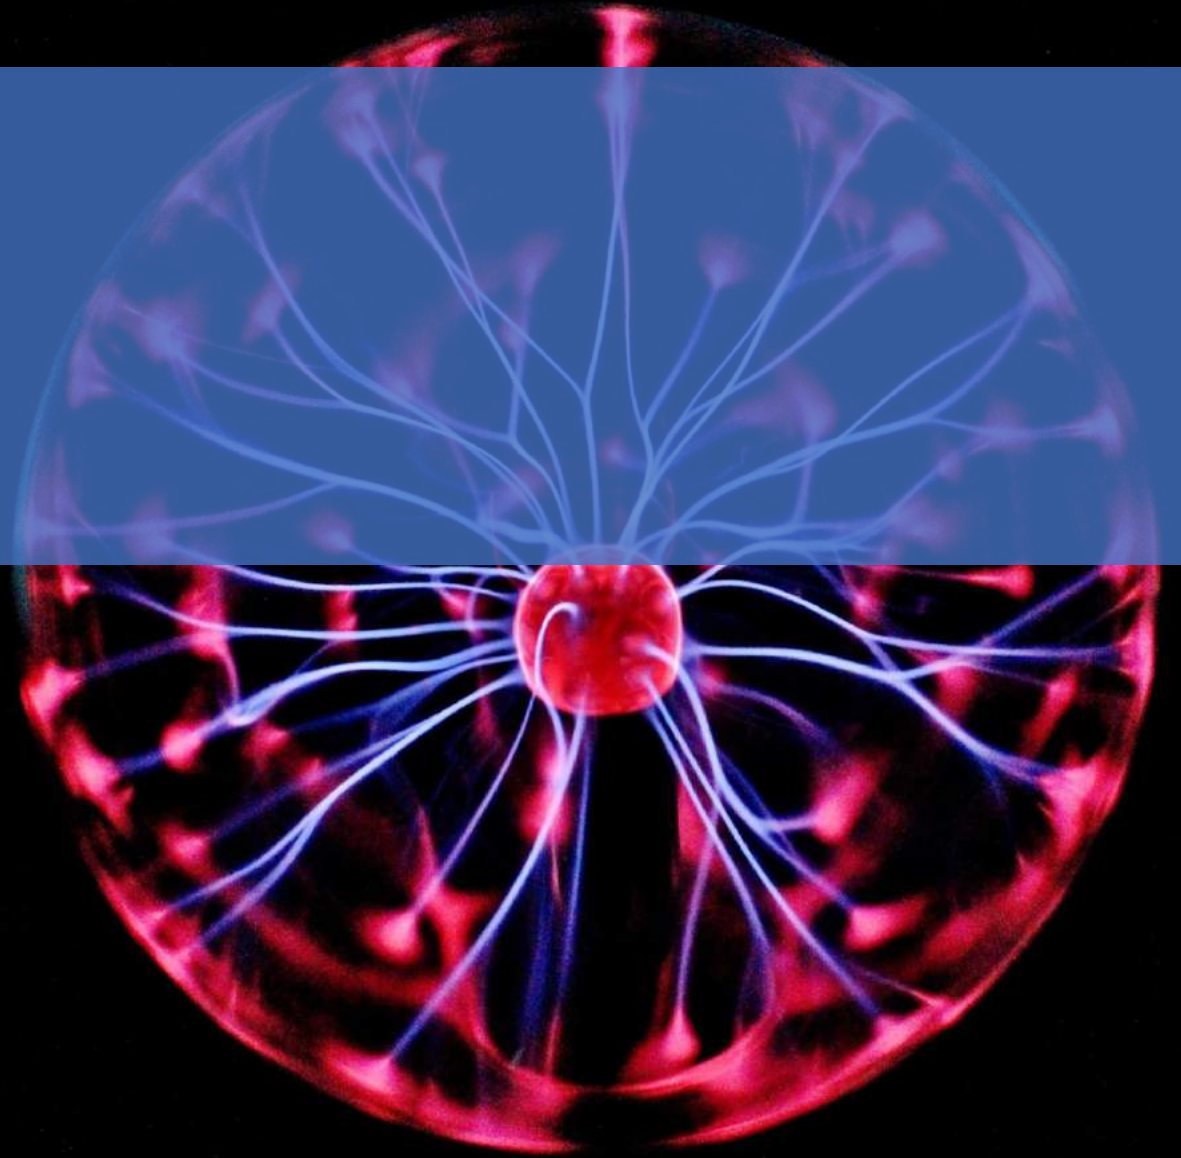

The promise of **Artificial Intelligence** and computer science generally vastly outweighs the impact it could have on some jobs in the same way that, while the invention of the airplane negatively affected the railroad industry, it opened a much wider door to human progress

Paul Allen
Co-Founder of Microsoft
